Ride-On Floor Scrubber

A26R

Sales Specification

10 Tecumseh Avenue West, Unit 4 · London, Ontario, Canada
Sales and Service · 519-871-4111

Specifications subject to the data plate on the delivered machine.

The machine

The ScrubWise™ A26R is a compact 24 V ride-on floor scrubber for indoor hard floors. Twin 330 mm disc brushes scrub a 680 mm path. A 920 mm rear squeegee recovers dirty water. A spray gun on the tank is included for rinsing and local spots. It is sized for plants, warehouses, schools and institutional corridors where a walk-behind is too slow and a large ride-on is more machine than the area needs.

- 680 mm scrub path, 920 mm squeegee.
- 24 V system — two 12 V / 100 Ah batteries.
- 75 L solution tank and 80 L recovery tank.
- On-board spray gun, 2.8 bar / 5.6 L/min.
- About 4 650 m²/h theoretical coverage.
- Net weight 145 kg without batteries; 215 kg with batteries.

ScrubWise™ A26R — front and rear.

Principal parts

- Steering column with key switch, battery gauge and function switches
- Operator seat and diamond-plate foot deck
- Twin disc brush deck under the chassis
- Solution and recovery tanks with grey lower body
- Rear squeegee with replaceable blade
- Recovery vacuum hose, spray gun, warning beacon and headlights

Specifications

ScrubWise™ A26R ride-on floor scrubber

Description	Unit	A26R
Machine type	—	Ride-on disc floor scrubber
Working (scrub) width	mm	680
Squeegee width	mm	920
Theoretical productivity	m ² /h	4 650
Brush diameter	mm	330 × 2
Brush motors	V / W	24 / 380 × 2
Brush speed	rpm	180
Brush pressure	kg/cm ²	38
Drive motor	V / W	24 / 500
Vacuum motor	V / W	24 / 500
Vacuum	mbar	145
Solution tank	L	75
Recovery tank	L	80
Spray-gun pressure	bar	2.8
Spray-gun flow	L/min	5.6
Batteries	V / Ah	12 V / 100 Ah × 2 (24 V system)
Sound level	dB(A)	≤ 68
Maximum grade	%	15
Machine length × width × height	mm	1 400 × 920 × 1 100
Net weight (without batteries)	kg	145
Gross weight (with batteries)	kg	215

Figures are the data-plate values supplied with the machine. Optional batteries or brushes can change weight and run time. Confirm the plate on your unit if a figure is critical to a doorway, elevator or job.
